

COVER UP (DOUBLES)

Materials Needed:

1 Cover Up (Doubles) Game Board

1 Deck of Doubles Math Fact Cards (cut apart and shuffled)

2 Players

Cubes or Game Markers in 2 Different Colors (one color for each player)

Directions:

On a player's turn, he will draw one math fact card. He will solve the doubles fact and look for the sum on the game board. He can only cover the sum once. If the sum is no longer available, he doesn't cover anything and the next player goes.

The game is over when one player gets three sums in a row (vertically, horizontally, or diagonally) OR when all of the sums are covered.

Players may need to reshuffle the cards during the game.

COVER UP (DOUBLES)

24	12	8	16	14	18
18	4	6	6	12	10
4	18	20	16	8	6
16	12	8	14	2	22
10	2	10	14	20	4
