

Phoenix information

Dear Phoenixes (and Parents/ Carers),

Well done if you have successfully logged into MySchool from home! This information page will help you navigate your way around the folders that we have created for you. You will notice that we have also uploaded a weekly home learning grid onto the website. This outlines suggested learning topics and activities for each week. Phoenix work is for those not carrying out AQE practice papers. Those doing practice papers should refer to the 'Centaur' home learning grid.

The MySchool help sheet will take you to a P6 folder. In this folder you will find another folder entitled 'Phoenixes'.

In the 'Phoenixes' folder there is another (yes another!) folder called 'Week 1'. Inside this folder you will find PowerPoint presentations and accompanying worksheets. Your home learning grid will tell you if there is a PowerPoint presentation to be covered before you complete a worksheet.

Each week we will add more folders (entitled Week 2, Week 3 etc...) and upload PowerPoints and worksheets to assist with the topics outlined in the weekly home learning grid.

We are missing everyone lots and are looking forward to hearing from you on our new P6 email.

Keep safe & keep enjoying this lovely weather,

Mrs Van Giesen & Mrs Martin
