

EMOJI VOCABULARY EXPANSION

WALT: Expand and strengthen our vocabulary by inserting interesting nouns, adjectives, verbs and adverbs into a text.

Read the story starter below, considering what each of the emojis might represent. Then, it's up to you to **rewrite the story** starter, inserting interesting vocabulary in place of emojis! Finally, decide where the story is going next and **write your ending** - firstly using emojis, and then using **fab vocab** instead!

Choose your level, and watch out for **banned words**!!

Level 1 - insert one noun, verb or adjective in place of each emoji.
Banned words → **boy, happy, sad, very, nice, glad, walk/walked, hill.**

Level 2 - insert at least two words (a noun with an adjective, or a verb with an adverb, for example) in place of each emoji. Banned words → **boy, happy/happily, sad/sadly, nice, glad, walk/walked, tired, hill, face, lucky, very, really, journey, shock.**
